

"A&B" TRIANGULATION DIAGRAM SHEET (Extended Octagon)

CUSTOMER:		SHIP TO:	
ADDRESS/CITY:		ADDRESS/CITY:	
PROV:	POSTAL CODE:	PROV:	POSTAL CODE:
PH:	FAX:	PH:	FAX:

NOTE: If you are performing an "A&B" triangulation, please use the "A&B" Triangulation Measurement Sheet to fill out your "A&B" measurements.

Date:	PO#:	Contact:	Contact # :	Contact # :
-------	------	----------	-------------	-------------

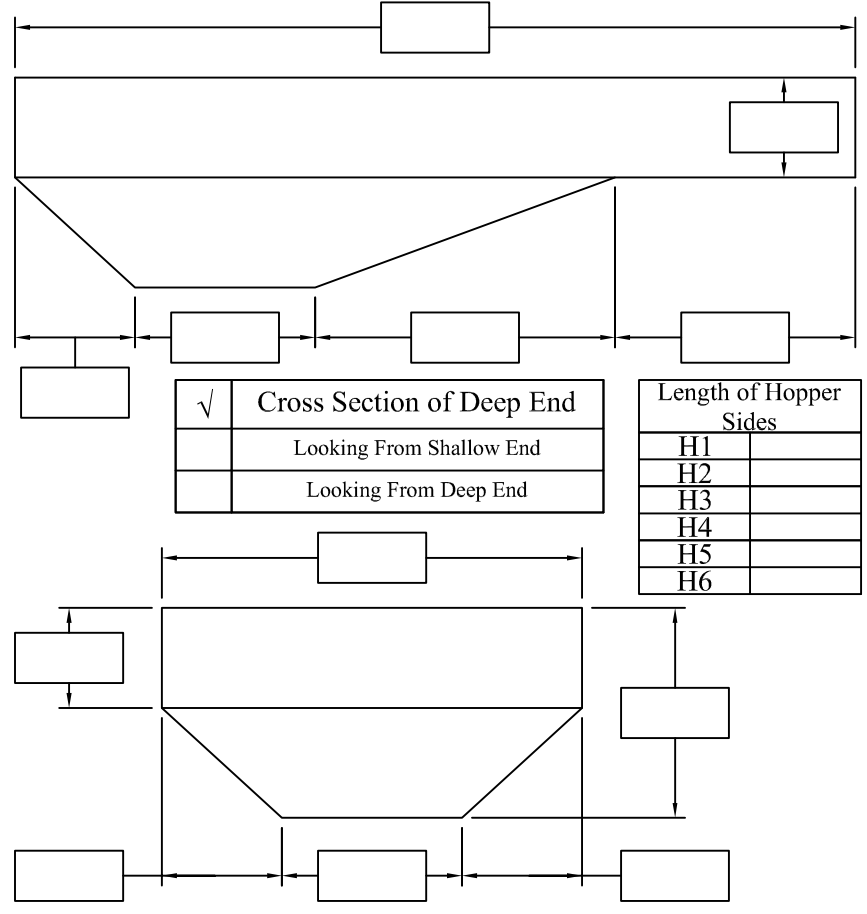

Tag:	Liner Pattern:
------	----------------

Wall Height:	Pool Depth:	Pool Perimeter:
--------------	-------------	-----------------

Note: If the Pool is square, it will not require an "A&B". If the pool is not square, it will be necessary to "A&B" the start & end of the straight walls. Be sure to establish the "S" points & Steps, if there are any. If the HOPPER is a different shape than the diagram, please include an illustration of the hopper, including the lengths of the hopper sides.

INSTRUCTIONS

- Position 2 stakes "A & B" a minimum of 10' apart, & a minimum of 3' from the pools edge.
Note: "A&B" must be outside of the imaginary box around the pool. If "A&B" stakes are placed in a different location than that of the diagram sheet, please indicate their location.
- Mark off perimeter of the pool in 2' intervals starting at the steps, if there are any.
Note: It may be necessary to mark off short & reverse radiuses in less than 2' intervals to properly establish them.
- Define break points ("S"1,2,3,4) with measurements from "A&B".
- Use 2 tape measures at the same time, to establish points.
- Fill in all measurement boxes
- All measurements should be taken Horizontally & Vertically.
- All measurements should be rounded off to the nearest 1/4".
- If a specific location is preferred for the wall seam, please indicate it on the diagram, by notation or use a triangulation point.
